Hi how can I help you today?

I am having trouble find where to update my billing info.

Oh, no problem. I'd be glad to help you out.

Great Thanks.

So first off, are you logged into your account?

Yes, I am.

Great! Can I get you to verify your e-mail address?

Sure thing. Its alex.martin@help.com

Perfect thanks! Now just click the account link at the top.

K I did that but I still don't see anywhere that I can change my billing information.

Alex Martin is typing... Well, first I'd like to ask a que...

cync WITHIN A BIGGER PLATFORM

I designed the wearable technology app with the intention of incorporating into a larger healthcare platform.

Information Architecture

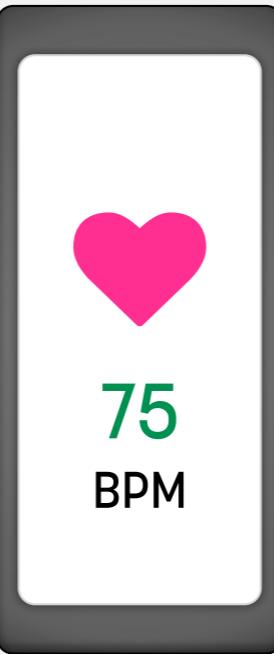

cync INFORMATION ARCHITECTURE

The patient can be more proactive in setting a healthy lifestyle, having access to vitals and receiving virtual assistance.

Identification

Heart Rate

Emergency
Call Forward

Vitals

cync
VERSION 1 WIREFRAMES

The wireframes reflect the basic functionality for the app.

cync DASHBOARD

Shown is the dashboard showing links to Vital Signs, Health Insurance, User Profile, Medical Support, and Settings respectively.

cync DASHBOARD

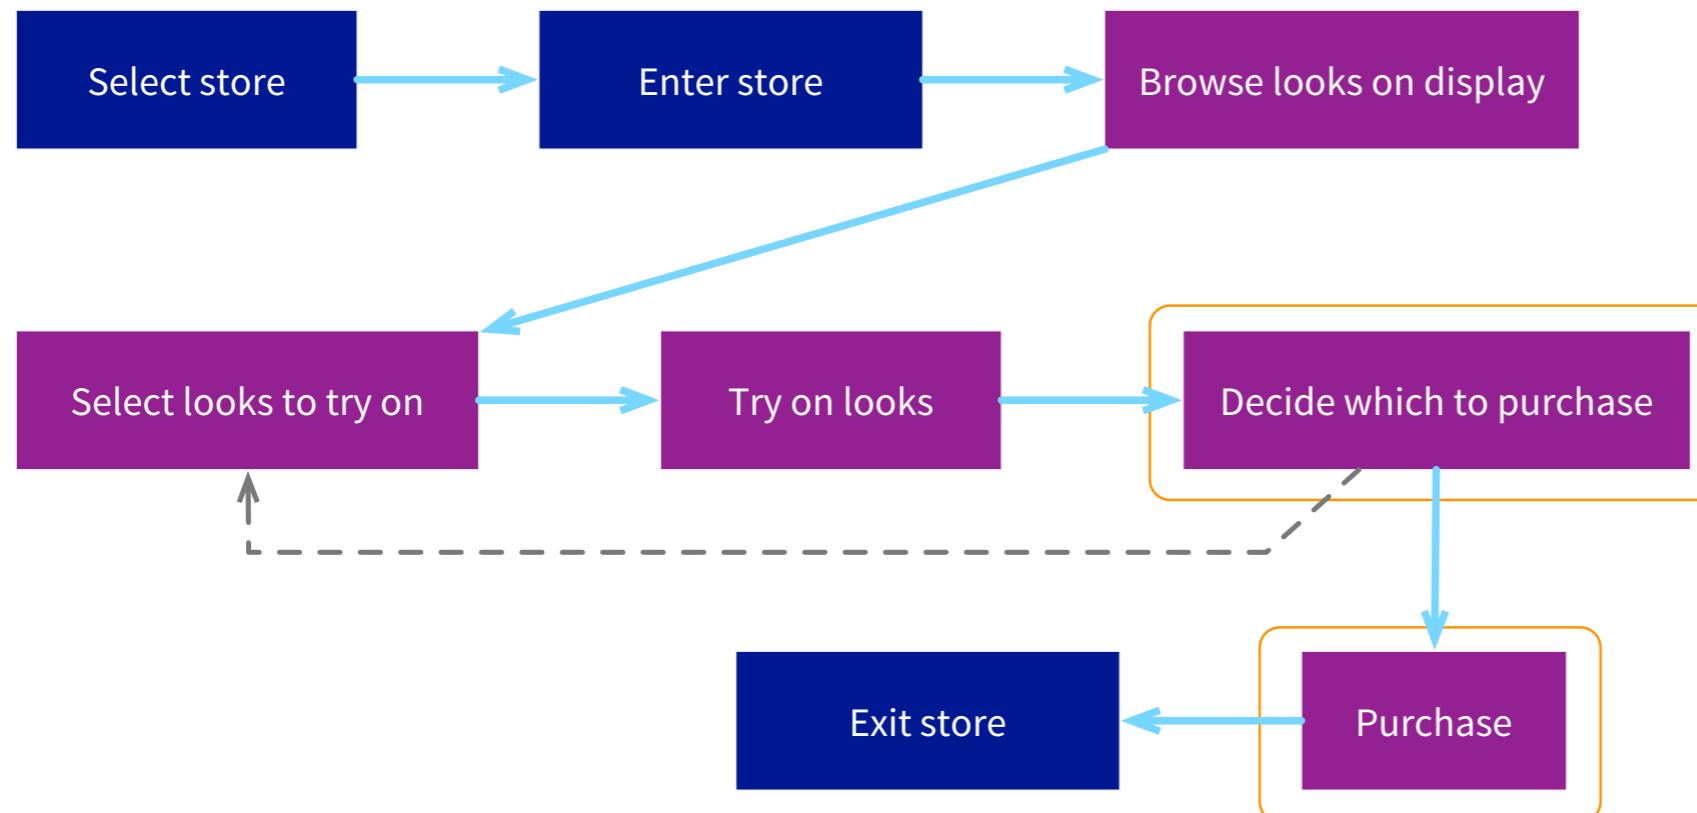

Whether the user is in or out of the hospital, cync immediately gets medical assistance. In times of crisis, the screen background turns blue for "Code Blue," the hospital emergency code for a patient in need of immediate medical assistance.

Appearal AUGMENTED REALITY

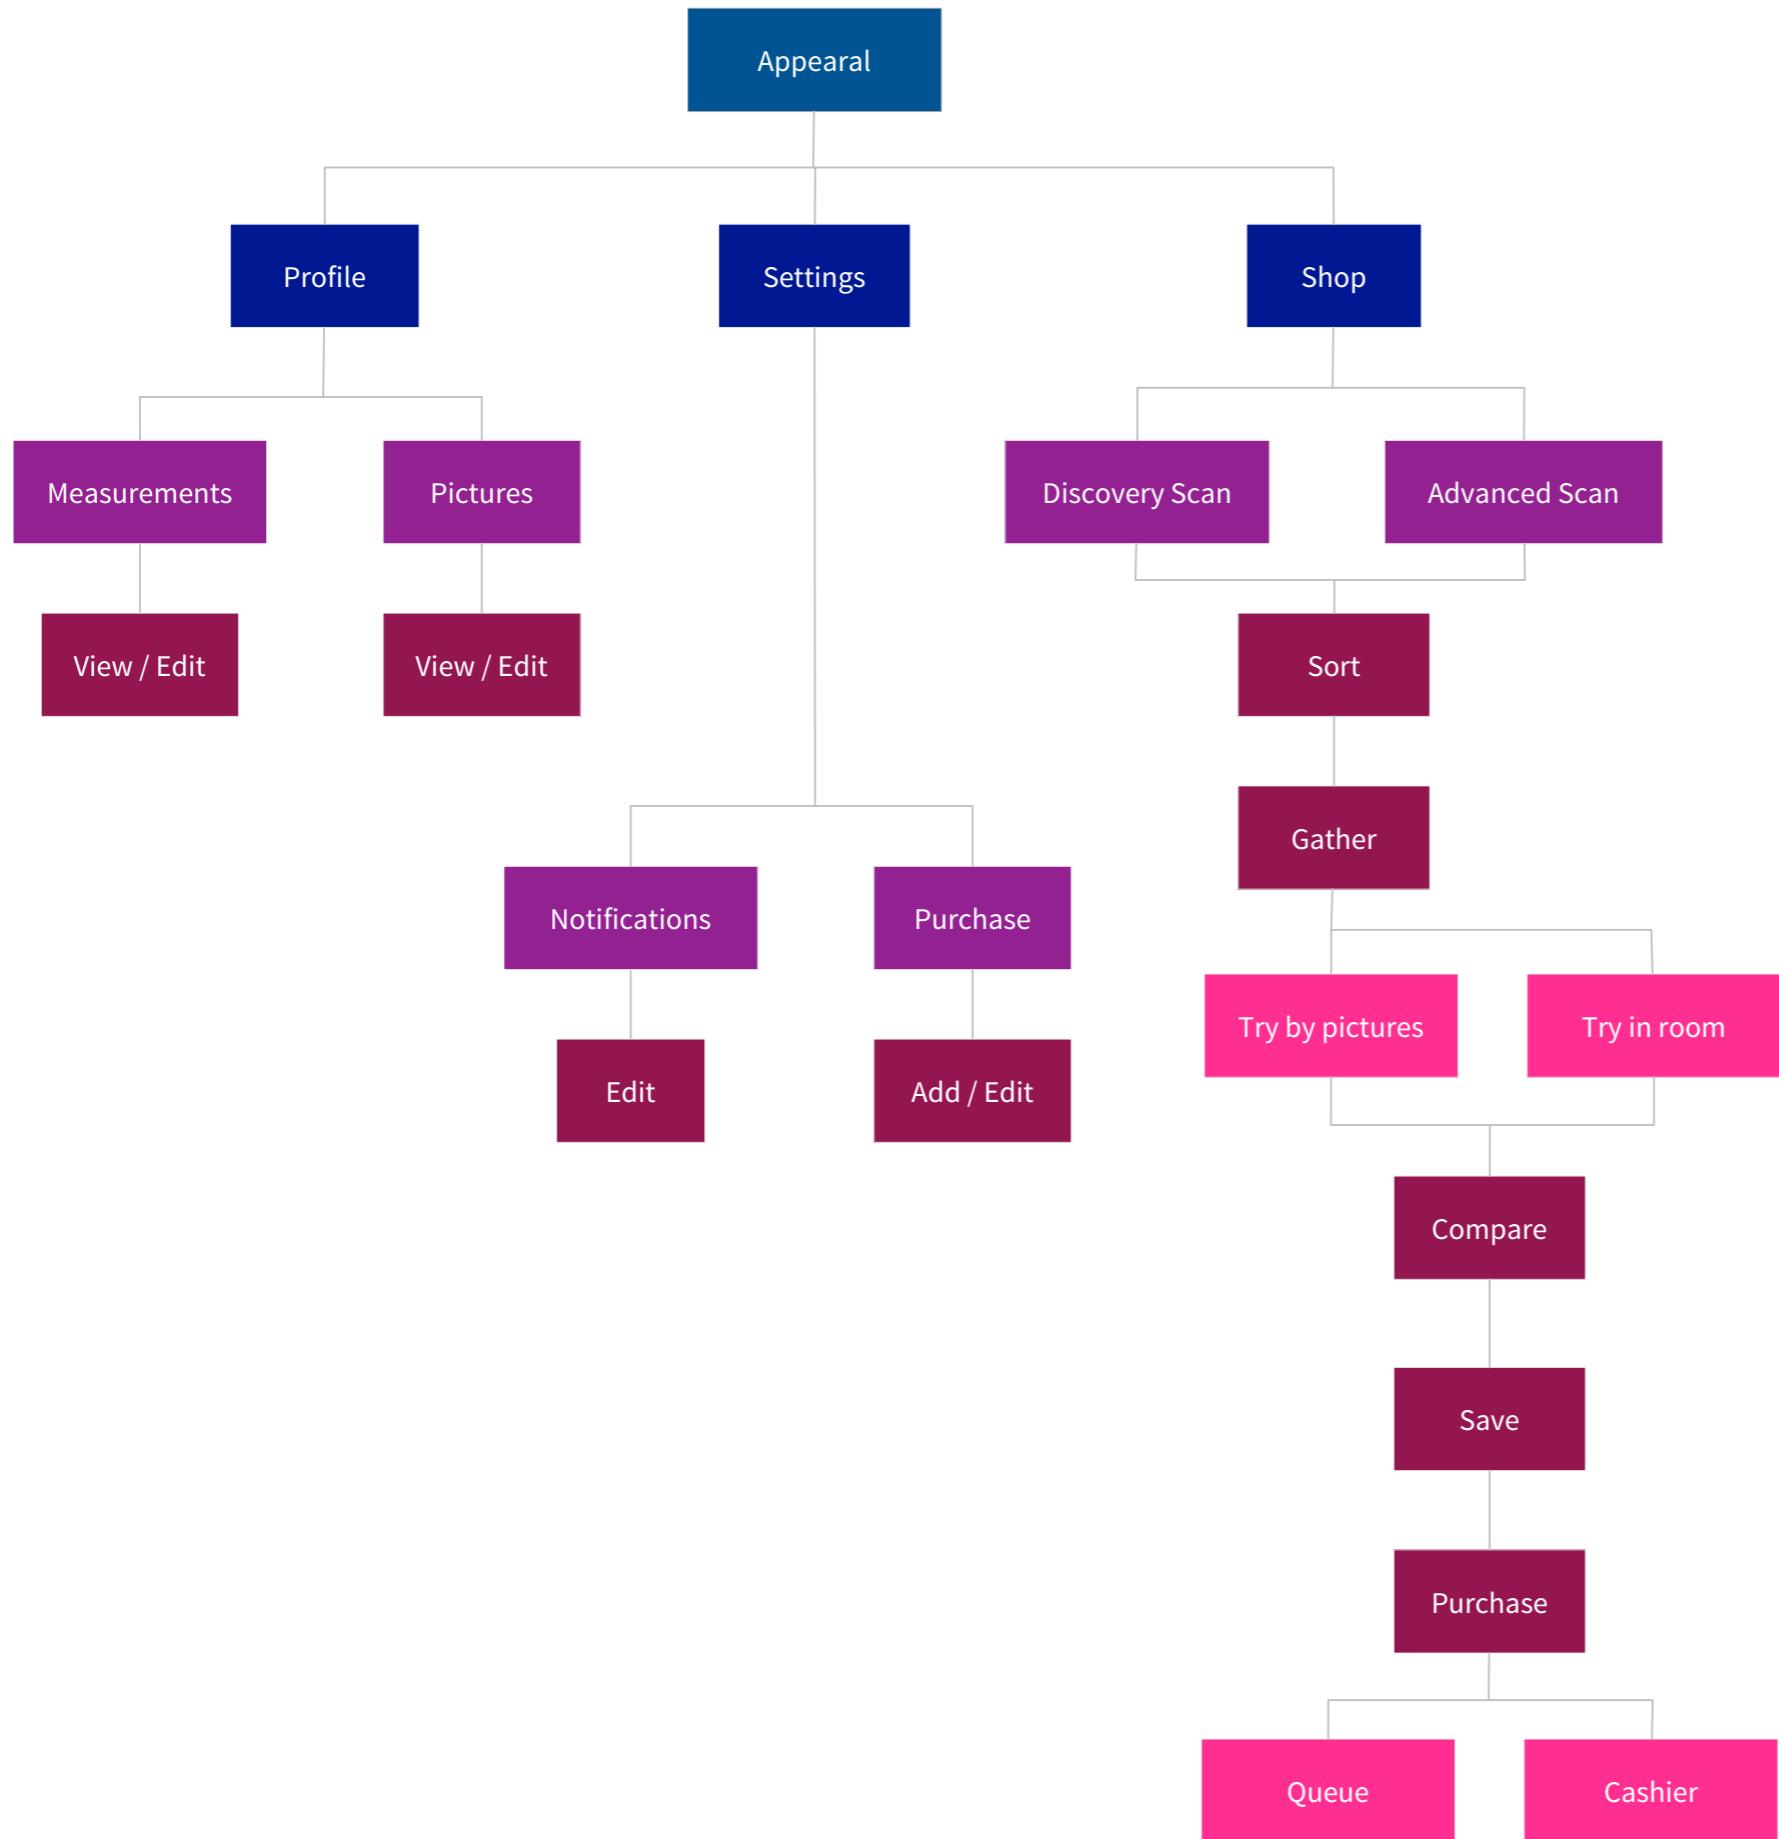

Appearal is the shopper's app for discovering and finding the best looks, all without having to physically try on the garment through the use of augmented reality.

Evie

Appearance JOURNEY MAP

In understanding the user's goals, I used a journey map to identify the pain points of the shopper.

Appearance INFORMATION ARCHITECTURE

I explored how the user could use the app to discover new looks or quickly identify which looks suit their personal sizes and goals.

Lindsey Stirling

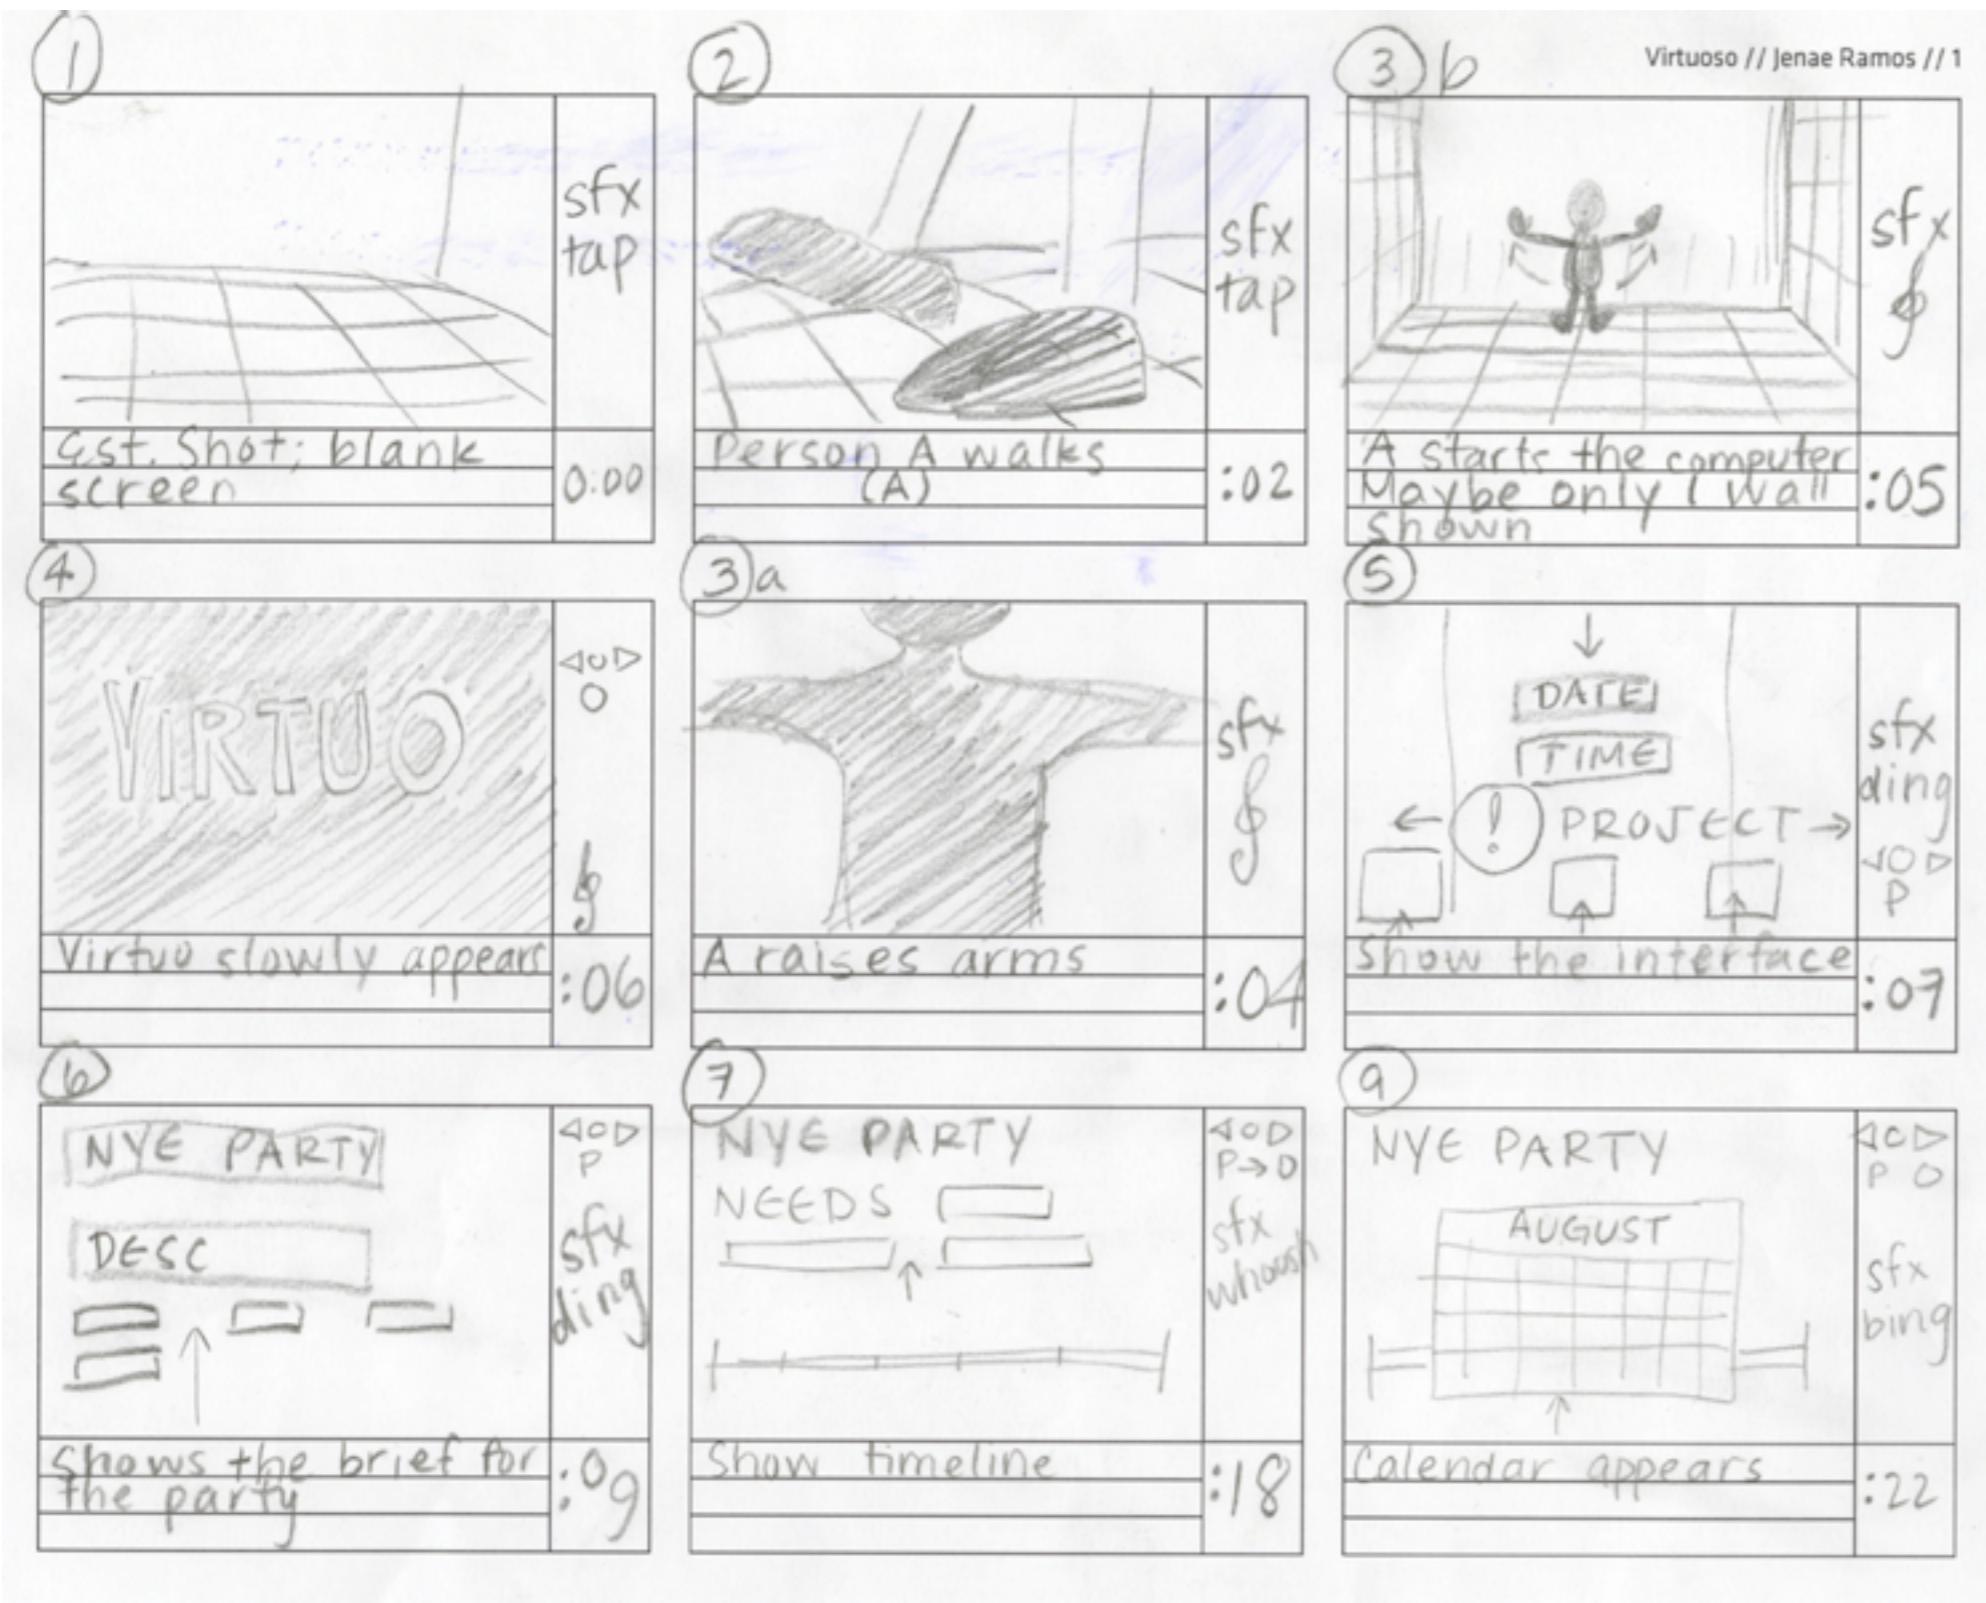

Stirling grew up in Arizona learning classical violin beginning at age 5. She gained popularity through her YouTube channel by combining her classical inspiration with EDM, hip-hop, dubstep, and dance. She also competed in the fifth season of America's Got Talent in 2010 when she showed off her work as a hip-hop violinist. Stirling recently released her album *Shatter Me*.

Virtuo GRADUATE THESIS

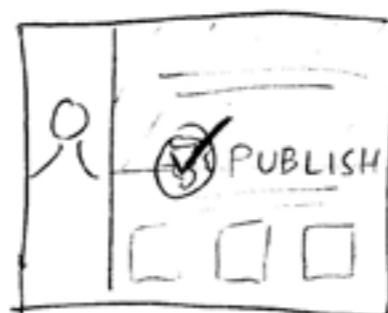

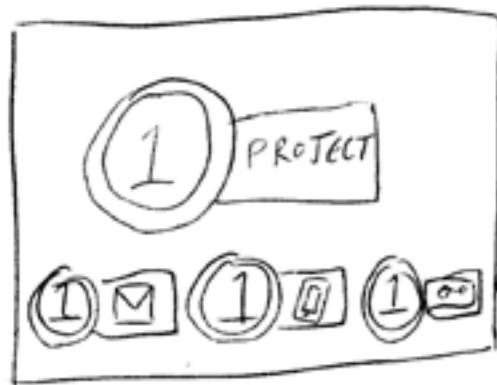

In envisioning the future, I used live action and motion graphics to convey how the future of user experience would soon evolve.

Virtuo VERSION 1 STORYBOARD

Before shooting, I created a few storyboards and considered different scenarios for the different characters.

CALIBRATION

ZOOM IN

SCROLL UP

SHUT DOWN

Virtuo INITIAL SKETCHES

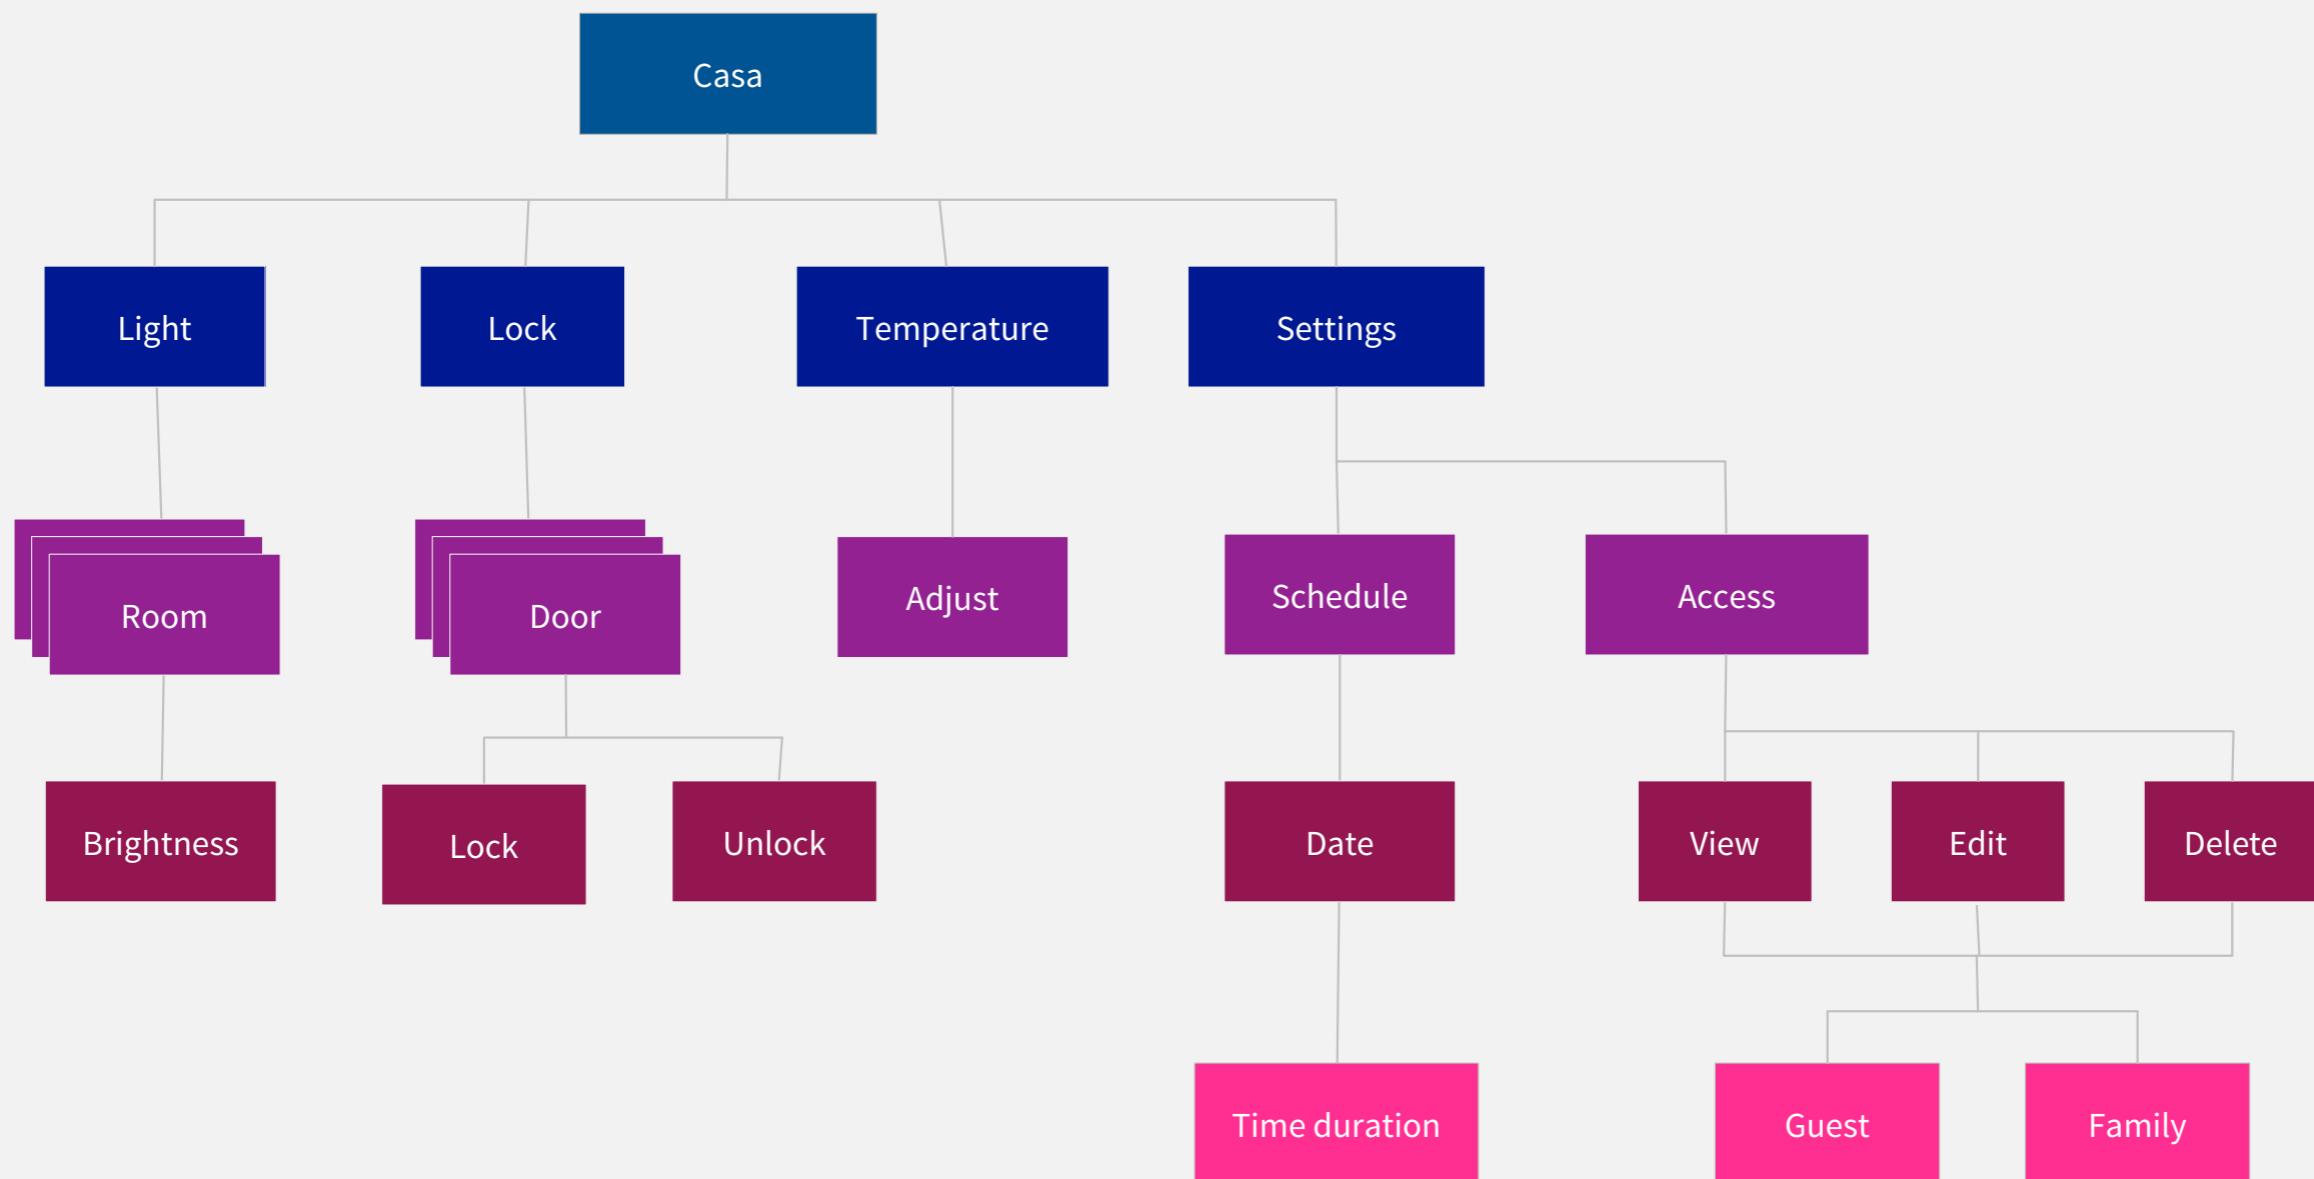

In conceptualizing the interface, I thought of the user as a conductor and the interface as an orchestra.

casa
INTERNET OF THINGS

Innovating home management, casa is an Internet of Things mobile application that allows the user to automate home security, regulate temperature, and simplify lighting.
